

It Can Only Get Better

Sarah Jaffe

Seven eleven
Swisher sweet
Walking downtown
Empty street

My brain starts cooking late at night
My eyes start looking late at night

(This is better)

Doodoodoodoodoodoooo
I'm seeing color
Doodoodoodoodoodoooo
I'm having vivid dreams
Doodoodoodoodoodoooo
And I know for sure, for sure

It can only get better
No second guessing
It can only get better
No further questioning
It can only get better
I've seen some stormy weather
It can only get better

Comatose heaven was incomplete
Words are medicine
Take them with me
Tie up loose ends
Another life
My eyes start looking late at night
Late at night

Doodoodoodoodoodoooo
I'm seeing color
Doodoodoodoodoodoooo
I'm having vivid dreams
Doodoodoodoodoodoooo
And I know for sure, for sure

It can only get better
No second guessing
It can only get better
No further questioning
It can only get better
I've seen some stormy weather
It can only get better
