

# Leaving The Planet

Sarah Jaffe

All the chemicals in your brain  
All the feelings that you felt that day  
All combine and culminate  
You take a trip

All the chemicals in your brain  
All the feelings that you felt that day  
All combine and culminate  
You take a trip

Are you leaving the planet  
[repeat x4]  
Are you leaving the planet (I'm following you)  
[repeat x4]
