

## Dark Road

Sarah Jarosz

You are going down a dark road  
And you find yourself alone  
And you are seeing things  
You never saw before

But the loneliness will leave you  
And you find yourself at home  
Then suddenly the world  
Is knocking at your door

The darkness covers you sometimes  
The road is long but it always unwinds  
And I find if you take your time  
You will make it fine

Now the way I feel inside  
Is not a mirror of my mind  
But I cannot find the way  
To be what I should be

With a thousand miles between us  
I can feel you in my arms  
But it's just a feeling deep  
In my memory

The darkness covers me sometimes  
The road is long but it always unwinds  
And I find if you take your time  
You will make it fine

The emptiness that fills me up  
Is farther from me now  
But it always lingers  
On the back roads of my mind

I am falling from the darkness  
Up into a swirling light  
And I am looking at  
The one I had to find

The darkness covers me sometimes  
The road is long but it always unwinds  
And I find if you take your time  
You will make it fine
