

# I Can't Love You Now

Sarah Jarosz

I can't love you now  
There's no use wonderin' how  
Just how long do I have to wait

I can dance your dance  
If you'll give this love a chance  
Laugh your way into romance, don't be afraid

And time moves on  
And leaves me here all alone  
Never felt this way before  
I can't love you now

The years that lie between  
Hold me back in time  
And this heart of mine  
Hasn't broken yet

We can sing and dance all night  
But this heart still aches for a fight  
The timings not quite right  
Still I dream of you

And time moves on  
And leaves me here all alone  
Never felt this way before  
I can't love you now

But I think I do
