

Little Song

Sarah Jarosz

Fly a little higher than the rest
Make your journey last
Soar a little longer than the best
Leave your worries in the past

Said all I can say about this love I have for you
But I need you back so I can make those feelings feel brand new
You can sing a little song for me
Oh sing a little song for me

You know a little tune can set us free
So sing a little song for me

My soul writes me
My soul plays me
My soul sings me

So I'll sing this little song for you
Oh sing a little song for me
And I'll sing this little song for you

You know a little tune can set us free
So sing this little song with me
