

# Lonely Side of the Moon

Sarah Slean

The wind makes a terrifying sound  
It wants to pull the lid off Earth  
It wants to tear the heavens down

It seems like Nature verses Man  
But the battle is absurd  
All the cards are in her hand

Graceful animal  
How clumsy you can be  
I will make a mess of you  
If you make a mess of me

But there's always the lonely side of the moon  
You can live on the lonely side of the moon

Observe the glacier bowing out  
Like a brave and threatened queen  
Who knows there's no way out

Be afeared if you think gods and men conspire  
The human drama burns  
While the stage is catching fire

Deep dark ocean  
Cherry tree in bloom  
If there are no mockingbirds  
How will I find a tune

On the lonely side of the moon  
If I live on the lonely side of the moon

Oh so beautiful  
Can this be the end  
Let me learn your miracles  
If I am to start again

On the lonely side of the moon  
When I live on the lonely side of the moon
