## **Trouble Is a Man**

## Sarah Vaughan

A woman gets all the blame For everything that happens under the sun But when it comes to being bad A woman's not the only one

Trouble is a man
A man who loves me no more, no more
Trouble is a man
A man I'll always adore

Nothing good to say about him Still I hate a day without him Why should he have to be The one, my only

Trouble is a man
A man who's handsome and tall, so tall
Trouble is a man
Who's for himself and that's all

After all we've done, he didn't mean it Now I understand, I should have seen it Trouble is a man Trouble, trouble
