

Enlightened Angel

Saratoga

He had committed a fault, born in a wrong place
where the strong became a god, cruel impostor man.
And if his cradle isn't noble
he will learn how yo go through living whith this grief.

Despising hostility, they want to obtain
of their bodies take away signs of rising up.
But they can't beat his fierce spirit
they will change eternity, just a moral game.

Enlightened Angel
can fell the wind breeze
that sound will get you to the dark inferno.

Enlightened Angel
watch how the time goes
from the eternal god will come the sorrow.

The contempt about to ignore the reality
there's a thousand ways to cheat thinking nothing more.
And never look again up to the sky
waiting someday the manna that will never arrive

Terrified on how yo live darkens all the fears
making terror as a live to survive alone.
Although desire travels in the luck
thirst to peace will then announce the way they'll have to take.

Enlightened Angel
can fell the wind breeze
that sound will get you to the dark inferno.

Enlightened Angel
watch how the time goes
from the eternal god will come the sorrow.

In the anxiety to arrive always to the top
once the ideal is crushed nothing more to care.
Maybe humanity one day'll change
it will break all the desires and will take to the lead.

Enlightened Angel
can fell the wind breeze
that sound will get you to the dark inferno.

Enlightened Angel
watch how the time goes
from the eternal god will come the sorrow.
