

## Conform with Me

Sarea

Conformity was never the answer  
Regulation a cause for relief  
Animating the dead to arise  
Last call, are you in or out?

Master, Master hear my call  
Lead me blindfolded, on and on  
Arise your dead, force-fed  
And the rest of your friends

We are leaving all those wasted years  
Believing we could always escape  
This time we are all left to die  
Force-fed a lifelong lie

Manifestation of the scorned  
The high end of human code  
Generic force of illusion  
Where did it go wrong ever (go back)?  
READY NOW? Holster your thoughts  
Damnation, solution, withdraw  
Repent atone for your crimes  
a lesson learned in life
