

## Duality

Sarea

Perpetuate  
The shelters in your life  
Discriminate  
The people that you fight  
Subjugate  
Yourself in every way  
Consummate  
There's no time left to wait

All you'll ever know  
And all you'll ever see is greed  
Staring back at you

Retaliate,  
Make sure they stay down  
Resuscitate  
And start all over again

Every time we speak  
In every word we hear  
Our true identity is revealed

Neo fascist hate,  
Don't let it get to you  
Cultivate yourself in every way

A loss of all conditions  
This frantic love to hate  
We build ourselves anew  
Eye for and eye  
And tooth for a tooth
