

Tell Me Now

Sash!

With a little bit of love (oh, love, oh, love)

Are you lonesome tonight, are you here on your own, can I get your attention?

Saw you dancing here tonight, with a smile that shines so bright, could I hold you tonight?

With a little bit of love, with a little bit of hope, with a little bit of everything

Do you think that's enough?

Tell me now, is it asking too much, to stay for a while?

'Cos time, precious time, is not on your side.

With a little bit of love

If I could hold you tonight, make you feel alright, gonna take you to heaven,

I miss you being by my side, make me feel alright, take you through the night,

With a little bit of love, with a little bit of hope, with a little bit of everything,

Do you think that's enough?

'Cos time, precious time, is not on your side
