

It Ain't That Bad

Sasha

Believe in something
You careless thing
Stop feeling sorry
It's worrying

Pick up the pieces
You've got the time
You can deliver
Your heart's just fine

Get your wreck together
You silly child
You can sing forever
Now, ain't that wild?
I say

It ain't that bad at all
It ain't that bad at all

Let's see the glitter
That you can bring
To every party
Now there's a thing

Stop misbehaving
Get a grip on yourself
Your life's worth saving
But for someone else it is

Now pack your troubles
For what they're worth
You ain't no angel
Come back down to earth
I say

It ain't that bad at all
It ain't that bad at all

Stop misbehaving
Get a grip on yourself
Your life's worth saving
But for someone else it is

Now pack your troubles
For what they're worth
You ain't no angel
Come back down to earth
And sing

It ain't that bad at all
It ain't that bad at all

It ain't that bad at all
It ain't that bad, it ain't that bad at all
