

State Of Conformity

Satanic Surfers

Comfortable lives in a capitalist democracy feeling safe
and secure until they take it away consumed by greed
pacified in apathy were disinformed to fit the norm that
corporations and media created stimulated but constantly
unsatisfied we are manipulated to value commodities higher
than justice higher than equality higher than justice our stand
ard

of life is measured by what we own subdued kept happy and blind

unconsciously confined kept on your knees no one bites the hand
that

feeds in a state of conformity where we value commodities higher
than justice
