

Haunted Lovers

Satyrian

Lost souls caught in twilight
Where our darkness never ends
Cursed to roam through an ever-lasting night
And so I leave my life in your caress

Life and death
Two and one
Hate and love
Moon and sun

On an endless quest across
All my love that is my loss
And the secrets of the rising sun
On an endless quest across
all my love that is my loss
Haunted lovers have become the ones

I know you well
We're spirits that can't dwell
There's no shelter but the bitter-sweet

Life and death
Two and one
Hate and love
Moon and sun

On an endless quest across
All my love that is my loss
And the secrets of the rising sun
On an endless quest across
All my love that is my loss
Haunted lovers have become the ones

Sometimes I blindly fall
And then you'll hear me call
Down my frenzy and my fire
Can you feel all this desire?

Life and death
Two and one
Hate and love
Moon and sun

On an endless quest across
All my love that is my loss
And the secrets of the rising sun
On an endless quest across
All my love that is my loss
Haunted lovers have become the ones
