

# Break

Saul Williams

And when my fears arise, I blow 'em out, blow 'em out, get it out

Death creeps through the streets over programmed beats  
A rabid dog in heat on a dead end street  
Oil slicks, the only rainbows that canvas gray concrete  
Shadows of skyscrapers fall when Mohammed speaks  
Corpses piled in heaps placing tags on feet  
A Nike Air Force Fleet custom made, unique  
Still in box white sheet, white tank top, wife beat  
Ripened blue, black, sweet

Hearts in two-step beat... break  
Dance pray work whip... break  
Neck jump back kiss... break  
Ashes, dust, kill, crush... break

Consider yourself: less than, inferior to  
Half man, superior to woman, unbearable likeness  
Consider yourself: almost, never quite, dark-skinned  
Lily white, black as sin, devils den, whiteness  
Consider yourself: outcast, criminal, unseen  
Invisible, point blank, ready cocked trigger  
Consider yourself: Hardcore, dirt poor, hustler  
BITCH, whore, reverend, doctor, nigger

Hearts in two-step beat... break  
Dance pray work whip... break  
Neck jump back kiss... break  
Ashes, dust, kill, crush... break

Let it out, blow it out, spit it out... get it out, beat  
Let it out, blow it out, spit it out... get it out, beatings  
Let it out, blow it out, spit it out... get it out, beats  
Let it out, blow it out, spit it out... get it out, beasts  
Let it out, blow it out, spit it out... get it out, get it out  
Let it out, blow it out, spit it out... get it out  
By the horns and get it out, cough it up and spit it out, get it out  
Let it out, blow it out, spit it out... get it out  
Let it out, blow it out, spit it out... get it out  
Break the cycle, break the chain, break the hurt and break the pain  
Let it out, blow it out, spit it out... get it out  
All my doubts and all my fears, break the spell that keeps me here  
Let it out, blow it out, spit it out... get it out  
Break the cycle, break the chain, break the whip and break the pain, get it out  
Let it out, blow it out, spit it out... get it out  
Let it out, blow it out, spit it out... get it out  
Spit, spit, spit it out, get it out... break  
Let it out, blow it out, spit it out... get it out, break  
Let it out, blow it out, spit it out... get it out, break  
Let it out, blow it out, spit it out... get it out, break
