

## Patience

Saul Williams

Patience over anxiety  
It's hard to remember the  
Love that sprang from simplicity  
Is harder to maintain

It's getting harder to maintain

Love has conquered over  
It's hard to remember the  
Fear that conquered over  
Is harder to maintain

It's getting harder to maintain

The blood boils over  
And courses through you  
When love takes over  
There's nothing to do

Patience over anxiety  
It's hard to remember the  
Love that sprang from simplicity  
Is harder to maintain

It's getting harder to maintain
