

And You Are

Savage

You don't stop when a feeling goes on
Taste your tears and see in front of you
Move your eyes looking at your shadow
Walk inside and throw me through this wall.

When time stops your body
All the words we say
Run away along a wall of tales and dreams
Take the way that carries you in me.

And you are and you're closed in me
Closed in me never go away
And you when you're in my eyes
Through this wall when you're closed in me.

Show the blood on your hands and make me
Understand how your grief is deep
Ask my soul and make me feel your touch alive
Break this wall and make your body free.
