

# Goodbye

Savage

Another cigarette  
Picked up my keys and left  
Those walls were closing in on me  
The rain was falling down  
I felt my heart just pound  
With thoughts of how we used to be

It started months ago  
Your distance on the phone  
I tried to change so we'd agree  
Do what you want to do  
I know that we are through  
But tell me why you had to leave

Goodbye  
Lonely words are in my mind  
Yours eyes don't hide your love has died  
You're touchin' someone else tonight  
So goodbye  
Don't forget that you were mine  
I'll try to keep my tears inside  
Goodbye

Goodbye  
Lonely words are in my mind  
Yours eyes don't hide your love has died  
You're touchin' someone else tonight  
Goodbye

The clock is ticking loud  
It seems the only sound  
That fills this empty place of need  
Reflections on your face  
Your lighter near the vase  
Your lipstick on the glass by me

Good bye  
Lonely words are in my mind  
Yours eyes don't hide your love has died  
You're touchin' someone else tonight  
So goodbye  
Don't forget that you were mine  
I'll try to keep my tears inside  
Goodbye
