

I'm Loosing You

Savage

Our same old story
You go all the way
Night and day I always wait for you
Alone I can stay
We met and you told me ''please try don't let me fly away''
I try to tie your wings today

You want you decide your destiny
Nothing more to say
Be silent listen to my pray

I'm loosing you
I'm loosing you
I'm loosing you

Looking for your glory
You must search your heart
Here I am, I love you, you must get
All these things apart

You want you decide your destiny
Nothing more to say
Be silent listen to my pray

I'm loosing you
I'm loosing you
I'm loosing you
