

Lonely Night

Savage

Walkin' down the street tonight
Through these city lights
Expectation not a lie
I'm searching for your eyes

You're the reason you're the pain
Fallin' like the rain
You can fix my heart this time
Don't wanna stay the night
Tonight alone again

Just another lonely night
Just another lie
Hold you in my arms and fly
You're dancing in the sky

Take me to the moon tonight
Let me blow your mind
There's no reason to be shy
I want you by my side

Just another lonely night

Empty space inside of me
Come and set me free
Take my hand and say my name
Pretend you feel the same
Tonight I dream again

Just another lonely night
Just another lie
Hold you in my arms and fly
You're dancing in the sky

Take me to the moon tonight
Let me blow your mind
There's no reason to be shy
I want you by my side

Tonight alone again
