

Spin The Wheel

Savannah Outen

Every single day what you say makes no sense to me Cause everything is scripted like you ripped it off an MTV- -Show me how you feel, kiss my hand, take a ride with me and ask me for a dance, spin me round, baby take the lead

Ah ah ah ah
Spin the Wheel, make me a deal
Ah ah ah ah

Every single time that we fight you've got remedies
Excuses that you've stolen from the bros up on the silver screen James Dean, Steve McQueen you could never replicate
So what's your alibi this time? Baby I can't wait!

Ah ah ah ah
Spin the Wheel, make me a deal Ah ah ah ah
Do you feel anything?

Every single ending I'm faced with the same refrain "Baby it's me, it's not you", "I need some space", So go ahead and choose me a line to break it off So go ahead and choose the line to end it all

Ah ah ah ah
Spin the Wheel, make me a deal Ah ah ah ah
Do you feel anything?
