

# Forever After

Savatage

You watch the news on your color TV  
Are you immune to what you see  
Death and destruction  
Till it numbs your mind  
To the rise and fall of all mankind

Hey you  
What ya gonna do  
When it's your world they're selling out  
But, you got your plot  
Smokin' your pot  
Till the trees are all dead  
You never knew, hadn't a clue  
You can't hide your head, head  
In your hands  
Nobody's safe  
Forever after

Let's kill the leaders  
Make it end  
But then we realize  
We are them

We buy the plastics  
Burn the fuels  
We make the choice  
We are the rules

Hey you  
What ya gonna do  
When it's your world they're selling out  
But, you got your plot  
Smokin' your pot  
Till the trees are all dead  
You never knew, hadn't a clue  
You can't hide your head, head in your hands  
No one's safe  
Forever after

Hey you  
What ya gonna do  
When it's your world they're selling out  
But, you got your plot  
Smokin' your pot  
Till the trees are all dead  
You never knew, hadn't a clue  
You can't hide your head, head in your hands

Forever after
