

Where do we go from here?
Together for seven years,
Pull a polaroid from the lawn,
You and your red dress before it was torn

Was it all a waste of time?
What if we never met that night?
Would you be the same inside?
I wanna make it work, I wanna get it right

Criss-crossed power lines,
Strung over the billboard sky,
Oceans burnt to dust,
And shadows from bombs above

Is it all a waste of time?
We are born, we give in and we die,
Think of all the ways we try,
We wanna make it work, we wanna get it right

What if we never met that night?
Would you be the same inside?
When you think of it do you start to cry?
You wanna make it work, you wanna get it right

It is all a waste of time?
We are born, we give in and we die,
Think of all the ways we try,
We wanna make it work, we wanna get it right.
