

# She Got Over Me

Saving Abel

A little heartache goes a long way  
Guess this is what love is all about  
I missed on monday, a terrible tuesday  
Maybe someday I can work it out  
But here we go again, it's finally sinking in

Thats just my kind of luck  
But I'm not given up  
I don't know what I'm thinkin  
She got over me  
Thats no way to look  
When you start addin up  
I guess I must be dreamin  
She got over me  
Whoa I'm over this feelin

Yes I'll admit it hard to handle it  
I stood my ground, anything goes now  
You don't ever let it get me down  
Maybe someday I can work it out  
But here we go again  
Whoa it's finally sinkin in

Thats just my kind of luck  
But I'm not given up  
I don't know what I'm thinkin  
She got over me  
Thats no way to look  
When you start addin up  
I guess I must be dreamin  
She got over me  
Whoa I'm over this feelin

Are you starin at the ceilin?  
Are you counting all the stars?  
Knowing I'm there in your heart  
All is fair in love and war, you'll find your way  
Thanks for the battle scars

Thats just my kind of luck  
But I'm not given up  
I don't know what I'm thinkin  
She got over me  
Thats no way to look  
When you start addin up  
I guess I must be dreamin  
She got over me  
She got over me  
Whoa I'm over this feelin  
She got over me
