

## Needles

Saviour

If you don't want me here then I can disappear  
I'll say goodbye to my friends and I'll be gone forever  
If you don't want me here then I can disappear  
I'll say goodbye to my friends  
I'll say goodbye

You use to dream  
You use to live  
You use to love

We wasted our time having fun

I want to shine like the flutters in our hearts on the first day

On the first day  
We were so confident in our skin  
We just wanted to peel it off  
Should we peel it off?  
Should we peel it off?  
Should we peel it off?  
Should we peel it off?

And I remember day one  
Nothing could come between us  
No matter how fucked up we were  
And I remember day one  
Don't you remember?  
Nothing could pull us apart  
We were joined at the heart

But nothing could prepare me for what happened next
