

# Hold Your Fire

Savoy Brown

I gotta find me another place  
Too many people in this Human Race  
Nobody cares about his fellow man  
I want to get away find a new plan  
Nobody tries in this neighborhood  
To be somebody that is understood  
It is just a game that you gotta play  
You sit around and dream your whole life away

Talk to me for a while  
Can't you see that were all trying  
You may think I'm a fool  
But these days it is so hard to smile  
Don't shoot me down  
Hold your fire

Drive myself to an early grave  
Hard work and worry for each dime I save  
Who's to blame for the state I'm in  
I play my cards but somehow I can't win

Talk to me for a while  
Can't you see that were all trying  
You may think I'm a fool  
But these days it is so hard to smile  
Don't shoot me down  
Hold your fire  
Hold your fire

Talk to me for a while  
Can't you see, baby that were all trying  
You may think I'm a fool  
But these days it is so hard to smile  
Don't shoot me down  
Hold your fire  
Hold your fire  
Hold your fire  
Hold your fire
