

Money Can't Save Your Soul

Savoy Brown

Well you've got a new man
And that's good for you
And you got a lot of money
But what good will that do
When he leaves you on the side
And the money falls away
You'll come running back baby
Believe what I say

Money can't save your soul
You better leave now
While it's still ain't old
Money can't ease your mind
Come back and leave it all behind

Your in his house
And it sure looks fine
With three other girls
But your first in line
But what would happen
When your time comes round?
The money will go
And you'll be homeward bound

Money can't save your soul
You better leave now
While it's still ain't old
Money can't ease your mind
Come back and leave it all behind

Money can't save your soul
You better leave now
While it's still ain't old
Money can't ease your mind
Come back and leave it all behind
