

Closer to Me

Sawyer Brown

I've never been the same since I met you
You gave me hope when no one gave me a prayer
You stood here faithful, right beside me
And now I know you did this so you could be

Closer to me
Than my hands and my feet
Nearer to me
Than the air that I breathe
There are always things that will always compete for my heart
But you know you are, and always will be
Closer to me

I've got nowhere to go if I go without you
Everyone can see us if they can see me
I've got my eyes on the only one that's true
Now when I run I, I run to you

'Cause you're closer to me
Than my hands and my feet
You're nearer to me
Than the air that I breathe
There are always things that will always compete for my heart
But you know you are, and always will be
Closer to me

Come closer to me
Come closer
Closer to me

You're closer to me
Than my hands and my feet
You're nearer to me
Than the air that I breathe
There are always things that will always compete for my heart
But you know you are, and always will be
Closer to me
