

# Just One Night

Sawyer Brown

Pretty packages are flashing down the sidewalk  
Bells are ringing as the people go their way  
Christmas time around the world  
For every boy and girl  
There will come a time they'll  
Wonder how it started

In just one night the world was changed forever  
Just one life given willingly  
And I remember -  
That December how it started  
In just one night

Little children with a list of all their wishes  
Busy shoppers with a list of what they need  
Every year we start anew with so many things to do  
We forget sometimes just why it is we do them

In just one night the world was changed forever  
Just one life given willingly  
And I remember -  
That December how it started  
In just one night

In just one night
