

Walk Out Of the Rain

Sawyer Brown

Girl I know you have been through a lot
Your heart's broke in two, yeah I ain't forgot
I've been hangin' on and waitin'
But I'm tired of hesitatin'
When it comes to us

Girl I think I might have what you want
Maybe I do and maybe I don't
But I'm willing and I'm able
And my cards are on the table
So let's fall in love

You gotta walk out of the rain sometimes
You gotta try and make a change sometimes
From underneath the clouds the sun ain't ever gonna shine
You gotta walk out of the rain sometimes

Girl I think I might just be the one
To brighten your sky and bring out the sun
From the cup of life you're sippin'
And it's time you started livin'
So let's drink it up

Girl I think you have waited so long
You might've forgot just how to go on
That's why I'm here to remind you
That all this stuff is behind you
And it's time for love

You gotta walk out of the rain sometimes
You gotta try and make a change sometimes
From underneath the clouds the sun ain't ever gonna shine
You gotta walk out of the rain sometimes

You gotta walk out of the rain sometimes
You gotta try and make a change sometimes
From underneath the clouds the sun ain't ever gonna shine
You gotta walk out of the rain sometimes
