

A Walk In The Park

Saybia

Don't stop 'till you get enough
Don't stop 'till you get enough
And your heart stops pounding
Don't stop 'till you get enough
Don't stop 'till you get enough
And your heart stops pounding
Don't forget there's a woman by your side

Did you take her for a walk?
Downtown city through the park
Hand in hand, twilight sky
Far away from the devil's eye
Don't you know there's a woman by your side

Don't stop 'till she gets enough
Don't stop 'till she gets enough
And her heart stop pounding
Don't stop 'till she gets enough
Don't you stop 'till she gets enough
And her heart stop pounding
Don't you know there's a woman by your side

Yes I took her for a walk
Downtown city through the park
Hand in hand, twilight sky
Far away from the devil's eye
So in love with the woman by my side

Yes I took her for a walk
Downtown city through the park
Hand in hand, twilight sky
Far away from the devil's eye
So in love with the woman by my side
I'm so in love with the woman by my side
