

Airplanes and Submarines

Saybia

I don't know what to do
I pay my bills
But I lost sight of you
Now I'm back in the city
Where I was born

I don't know what to say
So I say nothing day to day
Hoping that along the road
I'll find the answer

I'm not lonely
Nor in love
Somewhere in between
Airplane and submarine
And I found peace in my heart
With what I leave behind
I found peace in my heart
With what I leave
Behind

I've soared high in the air
Fought my way up from the depth of despair
Now I'm back on the surface
Feet on the ground

You're not alone on this quest
I'll take burden of your chest
Knowing that you'll have to find your own path
To redemption

I'm not lonely
Nor in love
Somewhere in between
Airplane and submarine
I'm not scared
Nor in denial
A sturdy machine
Pulling hearses and limousines

I found peace in my heart
With I leave behind
I found peace in my heart
With I leave
Behind

I'm not lonely
I'm not scared

Ooooh oooh
Yeaaaaea
Hooooooo oooh
Yeaaaaea
