

As I turn out the light
I'm consumed by the night
Am I happy
When my whole body aches
And I feel that I fake
My emotions?

I can't believe the void
I feel inside
The moon, the sun, the stars
Were passing by

In my life I am free
If the whole world agrees
Still I'm dying
And I hoped for so long
That one single song
Could set me free

I can't believe the void
I feel inside
The moon, the sun, the stars
Were passing by

Just as long as I'm here
It's waiting for me
As long as I'm here
It's calling out loud:
"Let me ease your pain!"
"Let me ease your pain!"
"Let me ease your pain tonight!"
