

## You & Me

Saybia

You shine  
Like a shooting star  
As my hand glides through your glowing hair

And we fly through the sky  
On a moonlit night  
And I swim in the seas  
Or within your eyes

You and me  
On a drifting cloud  
As we enter the land  
Through a dark world

And we fly through the sky  
On a moonlit night  
And I swim in the seas  
Or within your lies

You and me  
And a fairytale  
That is true that I know  
Cause you feel it too  
And we dance through the night  
Till the morning comes  
And we melt into one  
With the rising sun
