

It's the way she looks at me  
The way she turns and smiles at me  
I know, I know, I know it's something else  
It's the way she laughs with me  
The way that her bright blue eyes  
Open up the doors that were closed in my life  
And every day, it's like a new piece of the puzzle  
That will somehow come together in the end  
And paint me a peaceful picture  
Of the way that things should have been

Light up my darkness  
It's all yours  
Will you be my firefly  
Make your way into my night

She makes my earth connect with the skyline  
And become one beneath the sun's warm light  
She makes it all make sense  
She gives me confidence  
To wake up every morning feeling new, again

Light up my darkness  
It's all yours  
Will you be my firefly  
Make your way into my night

Light up my darkness  
It's all yours  
Will you be my firefly  
Make your way into my night
