

Here's My Heart

SayWeCanFly

And if you ever catch me speechless
It's cause I've never felt these feelings
You're everything I've ever loved about this world
And so much more

You've got this heaven in your eyes
It sets my everything on fire
Cause I don't know what I did to deserve
Feeling your skin on mine

So here's my heart for you if you want it
It's got a couple bruises on it
Sometimes it breaks down
And it doesn't work quite right
But you bring it back to life
You bring it back to life

And I'd believe in God if somebody could prove
That there existed something more perfect than you
But if this were the last time I ever felt love
I'd be alright
Cause nothing ever felt so true

But here's my heart for you if you want it
It's got a couple bruises on it
It's kinda rusty and it doesn't work quite right
But you bring it back to life
You bring it back to life
You bring it back to life

Here's my heart for you if you want it
It's got a couple bruises on it
It's kinda rusty and it doesn't work quite right
But you bring it back to life
You bring it back to life

You bring it back to life
