

Lucky To Know You

SayWeCanFly

Remember when we met
It's been so long now I almost forgot
Who I was
Back when I still didn't know you yet
We've both grown up
And I can't believe how much has changed since then

I've moved around
Made mistakes and learned a lot with time
But you took my hand
And showed me how to own them 'cause they're mine
And all along
Through everything you never left my side

Sometimes I wish the world could know just who you are to me
But some days I feel selfish like you're a secret I should keep
Who would've thought you'd be the one I got so close to
I'm lucky to know you
I wish to you the greatest things for all your greatest dreams
Even if that means they take you far away from me
I love you more and more with everything we go through
I'm lucky to know you
I'm lucky to know you

When you fall
There's no one else to hold you up like me
And when you cry
You can cry forever on my sleeve
When you get lost
I'll run to you just like you did for me

Sometimes I wish the world could know just who you are to me
But some days I feel selfish like you're a secret I should keep
Who would've thought you'd be the one I got so close to
I'm lucky to know you
I wish to you the greatest things and all your greatest dreams
Even if that means they take you far away from me
I love you more and more with everything we go through
I'm lucky to know you

So lucky, so lucky
So lucky, so lucky
So lucky, so lucky
So lucky, yeah

Sometimes I wish the world could know just who you are to me
But some days I feel selfish like you're a secret I should keep
Who would've thought you'd be the one I got so close to
I'm lucky to know you, yeah
I wish to you the greatest things for all your greatest dreams (So lucky, so lucky)
Even if that means they take you far away from me (So lucky, so lucky)
I love you more and more with everything we go through (So lucky, so lucky)
I'm lucky to know you (So lucky, yeah)
I'm lucky to know you
