

## 2012 - The Demise Of The 5th Sun

Scar Symmetry

Pinnacle of evolution  
The end of linear time  
Progress or termination  
Cosmic ray mutation

It's the question that burns inside  
Will we perish or rise with the tide  
When the waters of consequence  
Comes rushing forth

For the lines on the fractal wave  
Fits the course of history  
They're created to work as one 'til the end

A dimensional shift  
Leap in consciousness  
Or a dire destiny  
Asteroid fatality

It's the question that burns inside  
Will we perish or rise with the tide  
When the waters of consequence  
Comes rushing forth

For the lines on the fractal wave  
Fits the course of history  
They're created to work as one 'til the end  
At a time when terrestrial  
And galactic grids align  
The demise in 2012 realized
