

## Band Aid Covers The Bullet Hole

Scarling.

Bees in the caramel and I'm not afraid  
Surgeons make incisions  
What a mess they've made  
Tearing at my skin leaving knives in my brain  
Stabbing at the voices making me insane  
Girls vomit candy and lies that they're fed.  
Boys whisper lullabies and wet their beds  
Eat TV violence on the toast that they spread  
Talking with their mouths full here is what they've said

Say hello to my little friend the world is getting ugly  
and we did it again....  
Say hello to my little friend the world is getting ugly  
and we did it again  
Ohh Uh Ohh the baid aid only covers the bullet hole  
ohh uh ohh the baid aid only covers the bullet hole

La la la la la la la la la

Spinders in my hair and guns on my mind  
Thinking about the people who've been so unkind  
If looks could kill them  
I might make myself blind  
Startled at the reasons that I just can't find  
Kids break the dishes they crash on the floor  
Parents hate the noise and shove them out the door  
Robots steal emotions hide them under their beds  
It gets them so excited  
Here is what they've said

Say hello to my little friend the world is getting ugly  
and we did it again....  
Say hellow to my little friend the world is getting ugly  
and we did it again....  
Ohh uh ohh the band aid only covers the bullet hole  
Ohh uh ohh the band aid only covers the bullet hole

The band aid only covers the bullet hole  
la la la la la la la la la blah blah  
blah blah blah blah blah blahhhhhhhh
