

# This Is Not Your Love Song

Scars on 45

No more excuses  
No more mistakes  
No use pretending now  
This isn't too late  
But I found you through the fire  
And I've lost you in this lonely old house

Remember it was you and me  
Preparing on broken history  
But memories fade away  
I'm glad you gave me time to grow  
Now I'm just fine livin' on my own  
and

You'll never know what I'm thinking  
You'll never know what I want  
You'll never know how I'm feeling  
This is not your love song

You never know what I'm thinking  
I know that I was wrong  
This is not your love song  
This is not your love song  
This is not your love song  
This is not your love song

So I tore out the pages  
Of the story of our lives  
Tore me down to pieces  
When I finally realized  
You're just an education  
A lesson learnt without knowing why

Remember it was you and me  
Preparing on broken history  
but Memories fade away  
I'm glad you gave me time to grow  
Now I'm just fine livin' on my own

You'll never know what I'm thinking  
You'll never know what I want  
You'll never know how I'm feeling  
This is not your love song

You'll never know what I'm thinking  
I know that I was wrong  
This is not your love song

You'll never know what I'm thinking  
You'll never know what I want  
You'll never know how I'm feeling  
This is not your love song  
This is not your love song  
This is not your love song  
This is not your love song  
This is not your love song  
This is not your love song  
This is not your love song
