

Talkin' Shit

Scars on Broadway

Maybe your lazy
Sitting hazy
In the sun

Anticipating
Maybe waiting
Just for fun

All of your friends are watching you as you go by
All of your friends are talking shit while they get high

As in dimensions
Of the questions
On the moon

Maybe you are certain
That you're learning
But you're fool

All of your friends are watching you as you go by
All of your friends are talking shit while they get high

The eyes will be jealous
The eyes will be jealous
The eyes will be jealous
All the eyes are jealous

The eyes will be jealous
The eyes will be jealous
The eyes will be jealous
All the eyes are jealous

All of your friends are watching you as you go by
All of your friends are talking shit while they get high
All of your friends are talking shit while they get high
