

Where the Beats...

Scooter

Roll the dice!

Reverend H and the elephant girl
Gonna chat on the mic to the underworld
I'll buy you a shot if you dance hard to the new way
UK, new day, driving on the freeway
Increase the peace, release the tension
We gonna take you to another dimension
I speak to the music, let's play
We got crews on the way

I wish I was a hardstyle dancer
Do the shuffle highest degree
I would be dancing until the morning
For the pleasure to be with me
But the night is long
And I cannot rock over
Now have I the skills to pretend
If I could find me
A lovely DJ
To take me over, where the beats never end....

Yeah! Get up!
Bass - Drum!

Like the day when I started on my hardcore mission
checking out a rave, so I paid the admission
It blew my mind and at the same time
I changed my life to a life of rhyme - now!
Pitch up the speed and feel the tension
We gonna take you to another dimension
I speak to the music, let's play
We got crews on the way

But the night is long
And I cannot rock over
Now have I the skills to pretend
If I could find me
A lovely DJ
To take me over, where the beats never end....

We got 2009
And the crowd is still mine
Gonna make you rock
Under the radar, and over the top!

Alright!
Give it up now!
Come on!

In the hall of fame!

If I could find me
A lovely DJ
To take me over, where the beats never end....
