

It's plain to see the other side
Just as it's easy for you to start a fight
One person is limited to what he can say
But if we stand, stand together today

We amerarockers
You amerarockers
I amerarockers

We
I

We must look to the other side
So we can tell what's wrong from what is right
To solve our problems here's the one thing we can do
You dance with me and I'll dance with you

We amerarockers
You amerarockers
I amerarockers

And when I look around
I see all wearing frowns
I know H.R. would say this is a real shame
Why must it always be you cannot see
Why don't you stand up and rock with me

We must look to the other side
So we can tell
To solve our problems here's the one thing we can do
You dance with me and I'll dance with you
With you

We amerarockers
You amerarockers
