

Still Screaming

Scream

What I say is what I say
And what I do is what I do
What I want I want today
Right now I just want to get through to you

Might make you happy, might make you sad
By telling you things that make you mad
We may fall, but we will grab
All the thoughts we thought we never had

Still screaming

Your eyes to the ground
Your head's in a splay
Once you feel the pain it won't go away
You can't leave it - just reave it - believe

What we believe is what we believe
And if you compromise you're still just deceived
Your life's a life and one life can be reaved
But what you feel, it can never be seized

And now
I'm still screaming

Might make you happy, might make you sad
By telling you things that make you mad
We may fall, but we will grab
All the thoughts, the thoughts we never had

Still screaming!
