

Back Together

Screaming Trees

I watch the shadows fall across the floor
And the wind blows wild
I step outside into the night
Step outside myself a while

It all comes apart but then my eyes
Try to put it back together
It all comes apart and I am blind
Put it back together

A yellow truck rolls to a halt
How come the dogs go mad
I'm walking all alone down a one way street
Best time I ever had

It all comes apart and my eyes
Try to put it back together
It all comes apart and I am blind
Put it back together

I watch the shadows fall across the floor
And the wind blows wild
Step outside into the night
Step outside myself a while

It all comes apart and my eyes
Try to put it back together
It all comes apart and I am blind
Put it back together

It all comes apart and my eyes
Try to put it back together
It all comes apart and I am blind
(And I can't) put it back together
