

# All That We Are

Scritti Politti

Gonna get that girl  
And show her the time of my life  
Gonna get that girl  
And show her the end of the world  
Maybe I'll be the one thing she needs  
When I've found her  
(And worn her world away)

Gonna get that girl  
And show her the time of my life  
Gonna get that girl  
And show her the end of the world  
She could be free of all that she sees  
When I've found her  
(And worn her world away)

Chorus:  
We'll believe now in nothing at all  
Nothing compares with the love of the one for...  
All that we are now and ever could be  
Somewhere the forces of love come to disagree

Gonna give that girl  
A present that never arrives  
Gonna give that girl  
A future that's hard to believe  
Maybe I'll be the one thing she needs  
When I've found her  
(And worn her world away)

Gonna give that girl  
A present that never arrives  
Gonna give that girl  
A future that's hard to believe  
She could be free of all that she sees  
When I've found her  
(And worn her world away)

(Chorus repeat)

All that we are now...
