

Here Come July

Scritti Politti

Here come July
The world is there for me to share
Here come July
It sort of feels so hyper-real

Here come July
To test you all before the fall
Here come July
The end of school, the death of cool

Here come July now
And everybody's burning up
My summer's high now
The world has never been so happy in it's heart of hearts

Here come July
To sort the men from boys again
Here come July
To melt away the need to say

Here come July now
It heat'll hurt your feelings
It's feeling fine now
The sun will scorch the pavements of all piety and sin

It doesn't mean nothing, it doesn't mean shit
How can I be a part of it?
It doesn't mean nothing, it doesn't mean spit
How can I be a part of it?

It doesn't mean nothing
Some things never do to me

I'll mean the world to you
Maybe I could double all the negatives we know

Here come July
I love it makes it hard to take
So why d'you lie?
To me about the truth will out

Here come July now
And I can't hear your lipgloss
No case to try now
The sun will be on subterfuge, iniquity and you

It doesn't mean nothing, it doesn't mean shit
How can I be a part of it?
It doesn't mean nothing, it doesn't mean spit
How can I be a part of it?

Here come July now
Here it comes (woah)
Here it comes
I'm gonna crash, gonna burn, gonna watch as the worlds collide
I'm gonna crash, gonna burn, gonna watch as the worlds collide

(It doesn't mean nothing)
Here come July now (it doesn't mean nothing)
Here come July now
