As you lay beside me And stare into my eyes I wonder if you're hollow b Behind that smile

Just like me Just like me

As you lay here beside me in pieces Do you think I'm crazy? If I put you back together Will you be who you were?

Just like me, yeah

As I lay beside you And lie to get a smile I always knew you were The devil in disquise

Just like me Just like me

And I like her quiet like this
And I wonder does she still love me?
If I put her back together
How do I make her crazy?

Just like me Just like me Just like me

As you lay here beside me in pieces Do you think I'm crazy? If I put you back together Will you be who you were?

Just like me, ha-ha-ha

And I like her quiet like this
And I wonder does she still love me?
If I put her back together
How do I make her crazy?

Just like me, yeah
