

I'll Build You A Fire

Seabear

I went looking for a ghost in me.
Now I can see, now we can see,
where we are finally I can sing hard.
Touch your face with the length of your palm.

I'll build you a fire
I'll build you a fire if you sing in the night falling
down.

I'll build you a fire

I went looking for a ghost in me.
Now I can see, now I can see in dreams.
I'll build you a fire.
I'll build you a fire if you sing in the night getting
high(?)

I'll build you a fire.

They when looking for a stone in me.
Pull it out of my skin, till I see.
Where I should be, how I should feel.
So I'll build you a fire
I'll build you a fire if you sing in the night you'll be
all right.

I'll build you a fire.
