

# Monsters

Seafret

Caught in the dark with a sound in my heart  
Hiding alone down on the floor  
Out of my depth and I'm holding my breathe  
Don't wanna go outside the door

Paralyzed by my own emotion  
Out of my mind, looking for a way out of here, out of here  
Terrified and my feet are frozen  
Something inside got me wondering is this real?  
Is this real?

I'm hearing voices in my head  
I don't wanna hear, I don't wanna feel  
Say you ain't afraid of nothing  
Everybody is scared of something, woo-hoo

Smoke in my chest from my last cigarette  
And the dog start to howl at the moon  
Black silhouettes gonna haunt me again  
Creeping out from the shadows of the room

Paralyzed by my own emotions  
Something inside got me wondering is this real?  
Is this real?

I'm hearing voices in my head  
I don't wanna hear, I don't wanna feel  
I'm seeing monsters in my bed  
I don't wanna see, I don't wanna feel  
Say you ain't afraid of nothing  
Everybody is scared of something, woo-hoo

I wanna let you know  
I ain't afraid no more  
I wanna let you know

I'm hearing voices in my head  
I don't wanna hear, I don't wanna feel  
I'm seeing monsters in my bed  
I don't wanna see, I don't wanna feel, wooh-wooh  
I wanna let you know  
I wanna let you know  
I wanna let you know  
Saying you ain't afraid of nothing  
Everybody is scared of something, woo-hoo
